## ic-02: HTML & CSS

*This is an individually submitted assignment, but you may work with others to complete it*

---

### Purpose:

The purpose of this assignment is to practice HTML and CSS, which we will use throughout the semester to create custom visualizations.

### Tasks:

This assignment will be completed using GitHub Classroom. Please accept the assignment with this link (<https://classroom.github.com/a/qQSkHwUI>) and follow the instructions in the generated repo.

### Submission:

See Gradescope ic-02 for submission instructions.
