
hw-00: Getting Started

This is an individual assignment

Purpose:

The purpose of this assignment is to set up the various tools you will need to be successful in this class and to start thinking about your final project.

Tasks:

Start a document for this assignment. Anything you are asked to turn in for the tasks below should be recorded in this document. Responses for each task should start on a new page of the document.

1. Informational Survey (1 point)

Please complete the informational survey linked below. The first part of the survey is confidential and will provide information to the teaching staff to help us better support you in this class. The second part of the survey gathers data that will be used in a future homework assignment.

Survey: <https://forms.gle/379rziS4BgYV15i4A>

After you take the survey, take a screenshot of the page that says your response has been recorded. Turn in this screenshot as your response for this task.

2. Review Project Spec (1 point)

Read the spec for your final project (Project > Overview, on the course website).

After you read the instructions carefully, take a look at the [Project-Spec-Q&A](#) in the class GoogleDrive (Links > GoogleDrive, on the course website). If you have a question(s) about the final project that is not already on the spreadsheet, please add it. If any questions you have are already in the spreadsheet, please add a "Vote" for them in the spreadsheet. You must add or vote for at least one question.

After adding or voting for a question, add it to your document as your response for this task.

3. Review Class Overview (1 point)

Review the Class Overview on the course website: <https://amosca01.github.io/DS4200-S23/>

You are responsible for being familiar with late / grading policies. Add a note to your document verifying that you reviewed the class overview.

Submission:

All assignments in this course will be submitted through Gradescope. You should have received an email inviting you to join this course on Gradescope. If you did not, please go to Gradescope and manually join the course using this entry code: BBRJRX.

- Save your document as a PDF and submit it on Gradescope. **Be sure to assign questions to pages appropriately when you submit.**
